DETAILED ACTION

Allowable Subject Matter

1. Claims 27-28 and 60-61 are allowed.

The following is an examiner's statement of reasons for allowance: Independent claims 27 and 60, when considered as a whole, are allowable over the prior art of record. Specifically, prior art of record fail to clearly teach or fairly suggest the limitations "the identification of locations to the controller includes identifying a plurality of location rules to the controller, and wherein the controller generates a list of the locations of the controllable components in the one or more mounting racks based upon the identified location rules". The dependent claims further add limitations to the allowable subject matter of the corresponding independent claims; thus are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
